

Usability Evaluation of MR-conditional Infusion Pump system

Hello,

Healthcare Human Factors at Toronto General Hospital is conducting a usability evaluation of a MR-conditional Infusion Pump system and is in need of MRI Technologists to participate in the evaluation of the system. This is to ensure the design satisfies technicians' clinical and workflow requirements.

The study will be held between **April 23rd to May 3rd** at our labs located at TGH (4th Floor RFE). You will be asked to attend two sessions. The sessions may be on two separate days. Both sessions will last for approximately 1 hour each. You will be compensated **\$250** for participating in the usability evaluation.

If you are interested in participating in the study, please complete the following questionnaire:
<https://www.surveymonkey.com/r/DCB7VHS>

We would appreciate if you could forward this email to your colleagues you may know.

Thank you,

Neil Sokol
